Add your PADI Advanced Open Water Course for an extra \$200 (normally \$345)

TRIP INFORMATION

Dates:

Leaving Dive Otago on the morning of **Friday 25th June, coming back Monday 28th June**

Accommodation:

Three nights accomodation at Milford Lodge

Diving:

Milford Sound is known for its steep underwater walls, sometimes extending straight down for 250 metres. It is also known for its layer of fresh water that floats on top of the salt water. This layer can be up to 10 metres deep and contains tannins that have leached from the beech forests to colour the water. Underneath this, in 10 - 30 metres visibility, you can find century old black coral colonies that grow alongside vivid red hydrocorals. The low light encourages these colonies to grow at shallower than usual depths. Any dive in the grandeur of Milford Sound is one to be remembered - on this trip we will complete 5 dives off our brand new boat "Sea Horse".

Wildlife:

Red Coral, Fiordland Crested Penguin, NZ Fur Seal, Bottlenose Dolphins, Little Blue Penguin, Spiny Seadragon, Butterfly Perch, Girdled Wrasse, Jock Stewart, Marblefish, Spiny Dogfish, Golfball Sponge, Nudibranchs, Tube Anemone, Feather Duster Worm, Cleaner Wrasse and much more.

Optional PADI Advanced Course:

5 dives including Deep and Navigation and choose 3 electives

Choose from Peak Performance Buoyancy, Digital Underwater Photography, Boat, Naturalist, Multilevel and Computer, Search and Recovery, AWARE Fish ID.
